User reviews

That's what people say about Photo Sorter possibilities:"I had several hard drives full of different photo cameras in the different years. I am photojournalist and travel around the world with my photo cameras. In the past all photos were made on photographic films and are stored, being printed on the paper. Today I use digital photo cameras with high resolution, such as Nikon TX Extra. I stored all my photos on my notebook and several mobile hard drives. Finally, all photos mixed up and I even could not find photos from my last trip to Burma. I even did not know what to do. But my colleague advised me to use Photo Sorter. I installed it and it sorted all photos, that I had directly as I wanted (by camera model and date, when photo was made). I even did not supposed, that such clever photo organizers exist. Photo Sorter saved very many of my time - all my photos are now in the ideal order. Photo Sorter - is a program, which really helps people to sort their photos easily."

Greg List, photojournalist of newspaper "New York Times", greg.list@new-york-times.com More about Photo Sorter and photo sorting

Now you know that Photo Sorter - is a powerful photo sorting system that will sort, organize and rename all your photo collection. Photo sorter will not just sort your photos - photo sorter sort photos exactly as you want. From the first sight

you may say that if photo sorter sort photos in an unlimited ways - it is not so important photo sorter option. But when we take a real person - like you - we see that everybody want to sort photos in some personal, unique way. Photo sorter give everyone ability to select how to sort your photo collection. It may be done very easy - using appropriate step in photo sorter start-up wizard. This wizard is included in all photo sorter versions and gives you ability to select how your photos should be sorted with this photo sorter.

On this photo sorter start-up wizard step may easily select one of popular photo sorting methods: sort photos with photo sorter by camera model, sort photos by photo creation time, sort photos by photo dimensions, etc. If you need some custom photo sorting method - then you may ask photo sorter to sort your photos in some custom, your own way. For example, you may sort photos by country and city where photos were made, by persons who are shown on the photos - all this is available in the registered photo sorter version.

For example, with us contacted Graham Peart, a journalist from the Reuters (international information service), and asked: "I heard that your photo sorter can sort photos not only by date / time, camera model, dimensions, etc. but also by name of country and city where photo was made - is it really possible?". And we answered: "Yes, our photo sorter can do it!" All photos of this journalist were sorted with photo sorter exactly as he always wants - by country and city. In the past he spent several hours every week to sort his new photos. Now, with photo sorter, all is done automatically - he said: "Photo Sorter - is a miracle! It really helps me to sort all my photos - photo sorter sorted all my photos exactly as I want. Automatically."
